Our mission

Bicycles are becoming increasingly advanced, valuable, and integral to daily life. Yet the locks designed to keep them secure haven’t kept up - often relying on outdated, fiddly physical keys and ineffective protection. That’s why we developed the very first ART 2-certified keyless chain lock with integrated alarm.

About us

TMD Locks is a Dutch company headquartered in Almere and part of TMD Security, a global leader in high-security technology. For over 20 years, we’ve engineered protection for critical financial infrastructure worldwide - securing more than 400,000 ATMs against advanced threats and fraud.

Today, we apply that same hardware and software experience to the bicycle industry - developing smart security solutions designed to actively prevent theft in the rapidly evolving (e)mobility landscape.

Ultimate convenience meets style

Keyless access

Unlock with the press of a button when your phone is nearby - speedy, secure and seamless access. All without cumbersome keys.

Lightweight

At just 1.7 Kg (110 cm version), the TMD Chain Lock is one of the lightest ART 2-certified chain locks on the market.

Scratch-resistant

The Dyneema and Kevlar sleeve, along with a soft silicone cover, protects both the lock and the bike’s frame from scratches and damage.

Emergency access

If you don’t have your phone with you, a customisable emergency code allows manual unlocking via the lock’s button.

TMD LOCKS

The future of security, certified

Built-in alarm 100 dB alarm

A powerful 100 dB alarm activates instantly when tampering is detected - adding an active layer of deterrence.

ART 2 certified

Officially ART 2 certified and approved by insurers for use with insured bicycles.

Engineered to resist attack

Every component is designed to withstand force and interference - from heavy impact to sophisticated electronic attacks.

Extremely durable

Every component has been optimised to perform under the toughest conditions, ensuring the lock is water, temperature and shock resistant.

A simple, powerful app

The free TMD Locks app extends control far beyond just the lock itself.

Share access

Give your friends and family access to your lock without having to duplicate and share physical keys.

Activity insights

See when, where and by whom the lock has been used - including activity from shared users.

Locate your lock

Find the last known location of your lock directly in the app.

Become a TMD dealer

As an authorised dealer, you benefit from competitive margins, professional marketing support and materials, and a dedicated account manager.

Dealer benefits

Attractive margins

Selling the TMD Chain Lock delivers a higher absolute margin than standard locks.

Fast, reliable, and free shipping

Orders are dispatched within one business day. Orders of four units or more qualify for free shipping within the Netherlands and Belgium.

POS support

Professional POS materials, including a demonstration station, so customers can try the lock firsthand.

Warranty coverage

All locks include a 1-year dealer warranty and a 2-year customer warranty.

Dedicated order portal

Place and manage orders quickly and easily through our online dealer portal. Track, review and edit orders in one place.

Support & aftercare

Every dealer is assigned a dedicated account manager for ongoing support, guidance and to answer any questions you might have.

Don’t just hear it from us

Wim 40-49 years old
Speed Padelec

“As an engineer, IT specialist, and tech enthusiast, I was immediately a fan of the idea. After using the lock, I’m even more convinced. It’s the most valuable and useful bike accessory - sturdy, shareable within the family, alarm protected and finally no separate keys to lose. I highly recommend it!”

Femke 20-29 years old
Electric City Bike

“An excellent lock - innovative, thanks to the integrated app, and really user friendly.”

Kevin 40-49 years old
Cargo Bike

“A high-quality lock that’s surprisingly lightweight compared to others of a similar length. The built-in alarm and ease of use make it a real winner for me.”

Dieter 40-49 years old
Electric City Bike

“I’ve been using the TMD Chain Lock for a few weeks now and am very pleasantly surprised by how easy it is to use. Installation was quick and intuitive via the app. Opening and closing the lock is fast and reliable, making it great for day-to-day use. The sleek, contemporary design also makes TMD Locks a winner. In terms of the finish, it’s both durable and stylish - all without compromising on functionality.”

Jan 60-69 years old
Electric City Bikes

“The TMD Chain Lock is a modern security solution that really meets today’s digital and security needs when it comes to eBike owners. The features bring it to another level - it’s keyless, has a powerful alarm, ART certification and even an app. Price-wise, it’s a premium choice, but it feels justified if security and ease are a priority. This is definitely the best option for both style and security.”

Domenique 40-49 years old
Speed Padelec

“A very handy lock that doesn’t have a key to lose. It’s also sturdy, stable, has a long-lasting battery and there’s even an built-in alarm that activates if your bike’s moved.”

Ivo 30-39 years old
Elektrische stadsfiets

“A great lock! The sleeve works well, the app functions work perfectly, and all the features make it feel like a very premium product.”

Matthias 20-29 years old
Speed Padelec

“The TMD Chain Lock offers added confidence that a standard lock simply couldn’t provide. The built-in alarm is especially effective when it comes to deterring thieves.”
