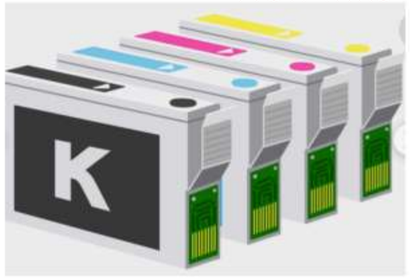
WASTE

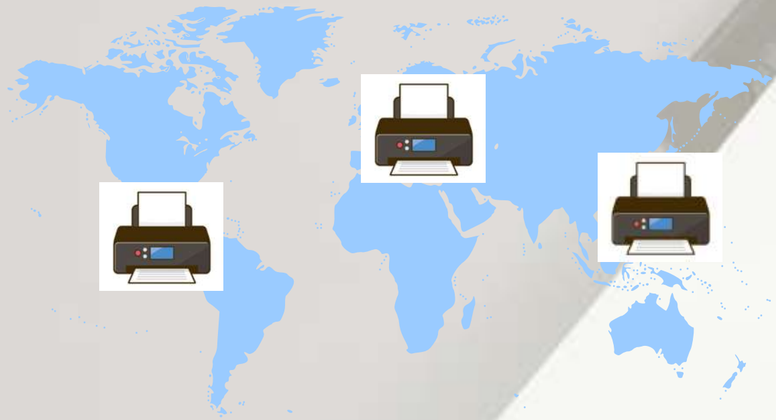
New Inks



Kairiki Case

The same inks can be used for any printer provided by Kairiki.

Problems with Printers on vessel



Cartridge

- In small capacity, a lot of cartridges need to be arranged at once
- Inventory control on board becomes complicated.
- Generate much plastic garbage

Compatibility

- Difficult to arrange the same model of printer at ports arround the world
- Printer manufactures change models regularly (mostly yearly)
- Unfit cartridges become waste

Malfunction

- Paper Jam, low print quality...
- there is no useful trouble support with understanding ship management
- You might purchase a new printer every trouble of printer

COST WORKLOAD Taking Master & SI s valuable time 😫

Solution & Advantage

KAIRIKI GROUP

- Ink can be used for any model of Kairiki Printer
- Ink for One year use to be supplied at the beginning of service
- Additional Ink to be supplied upon request by the Master
- Ink cost is included in annual service fee
  < No additional charge >

Sustainability

Biodegradable Material Ink Bottle Container

Kairiki's new original ink bottle now features a container made from biodegradable materials. Both the bottle and the spout are composed of eco-friendly, biodegradable material. This material does not release harmful substances when incinerated, and when buried in soil, it naturally decomposes in the environment—meaning it causes no pollution at the time of disposal.
We hope this contributes to your company's environmental initiatives.

Additionally, analysis reports of the material and combustion test results can be accessed via the QR code attached to the bottle. This allows for instant verification even during unexpected audits.

APPROVAL LETTER

Dear Kairiki Co.,Ltd.,

Dear Kairiki Co.,Ltd.,

August 2025

Thank you for submitting your greenhouse gas emission reduction target(s) to SBTi Services for validation.

Our team has assessed your company's targets against the SME Criteria Assessment Indicators (v1.0) and after careful review, we are happy to inform you that your submitted target(s) have been approved.

Basic information about your company and the approved target(s) will be listed on the SBTi's Target Dashboard. The following agreed target wording will be used:

Our company commits to reduce absolute scope 1 and scope 2 GHG emissions 58.8% by 2034 from a 2024 base year, and to measure and reduce its scope 3 emissions.

Congratulations on your approved science-based target(s)!

Regards,
SBTi Services
